```

The diagram illustrates the transformation of a template into HTML code. The left side shows the template structure, and the right side shows the corresponding HTML code.

Template Structure (Left):

- Header: `{{Portal/ContainerOpen|col=3|class=contact-primary}}`
- Content:
 - `{{Portal/CellOpen|class=personal-contact}}` `{{Questions}}`
 - `{{Portal/CellClose}}` `{{Portal/CellOpen|class=webinar}}`
 - `{{Testwiki/Webinar}}` `{{Portal/CellClose}}`
 - `{{Portal/CellOpen|class=helpdesk}}` `{{Testwiki/Helpdesk}}`
 - `{{Portal/CellClose}}`
- Footer: `{{Portal/ContainerClose}}`

HTML Code (Right):

```

+ <div id="fb-like" data-plugin="facebook" data-width="" data-height="" data-color="" data-layout="button" data-action="like" data-size="small" data-share="true">
+   <div class="fb-like" data-href="https://www.facebook.com/GreenwichYachtClub/"
+     data-width="" data-layout="button" data-action="like" data-size="small"
+     data-share="true">
+   </div>
+ </div>
+ </div>
+ </html>

```

The diagram shows how the template placeholders are replaced with actual HTML code to generate the final output. The code includes JavaScript for creating and inserting elements, and HTML for the container structure and content.
